Our Mission

Our mission is to develop a love for STEM in an engaging, protected environment for students to explore, make mistakes, and grow into future leaders.

Team #6744 aims to provide a **home away from home** in which all members are provided with an enriching STEM experience, emphasizing the importance of dedication, problem-solving, and teamwork.

We are a **FIRST** robotics team looking to create connections in our community.

Although the cost of robotics is high, the benefit is even higher.

Costs:

- * \$ 5,000 per competition
- * The cost of the necessary parts
- * Constructing more robust and versatile robots

Benefits:

- * Attracts more attention to the STEM field
- * Excite the next generation of innovators

Community Outreach

Mehlville Pi is involved with many forms of community outreach.

- * **Charity events**
- * **STEM nights**
- * **Volunteering at community events**
- * **Providing opportunities to exposed others the exciting**

How to Help Us!

- ⇒ **Monetary**
(See sponsor levels on back)
- ⇒ **Mentoring**
- ⇒ **Food**
- ⇒ **Fabrication**
